SKILLS

Frontend

- React.js • EJS (Embedded JavaScript)
- Redux Toolkit • MUI (Material-UI)
- HTML • CSS • JavaScript • jQuery
- Bootstrap

Backend

- Node JS • JSON • SQL

Database

- MY SQL • MongoDB

Programming Language

- C • C++ • Java • Python • DSA

Operating System

- Windows • Ubuntu • MacOS

Version Control

- Git • GitHub

Deployment

- AWS • Vercel • Netlify • GitHub Pages

Design

- Canva • Figma

IDEs and Software

- Visual Studio Code • Sublime Text • MS office

Blockchain Technology

- Hyperledger Fabric

OTHERS

- Organized
- Task management
- Creativity
- Leadership
- Exploring new technologies
- Multi-tasking

EDUCATION

B. Tech, CSE

Maulana Azad National Urdu University
2020-24 | Hyderabad, India
CGPA: 8.21/10

Diploma, IT

Maulana Azad National Urdu University
2017-20 | Hyderabad, India
CGPA: 9.12/10

LANGUAGES KNOWN

- English • Hindi • Urdu

EXPERIENCE

Ministry of Electronics & Information Technology (MeitY) Project MANUU

Intern

Mar 2024 - June 2024 | Hyderabad, India

- Contributed to various aspects of the project, including data entry of course content and development of the CMS dashboard for www.eeekshaam.in.
- Created three engaging games and assisted in drafting the System Requirement Specification (SRS) document.
- Organized the "Coding Carnival Hackathon," fostering collaboration and innovation.
- Led a team of 20 interns, ensuring successful project execution through strong communication and organizational skills.

Ministry of Electronics & Information Technology (MeitY) Project MANUU

Intern

Mar 2023 - Dec 2023 | Hyderabad, India

- Developed the Home, Workshops, and Other Events pages for www.eeekshaam.in and created five engaging games integrated into the student dashboard.
- Assisted in implementing responsive designs for optimized user experiences across multiple devices.
- Collaborated with senior developers and UX/UI designers to transform concepts into functional web components..
- Participated in code reviews, debugging sessions, and proactively learned new frontend technologies and best practices.

PROJECT(S)

Next-e-Learning

ReactJs | NodeJs | ExpressJS | MongoDB

- Developed a full stack (MERN) e-learning platform, Next eLearning, focused on personalized, accessible, and engaging online education.
- Implemented JWT-based login authentication and managed state using Redux.
- Enhanced styles with SCSS and Bootstrap, integrated SMTP for email services, and used Multer for image uploads.
- Deployed the backend on AWS EC2, ensuring mobile responsiveness.
- GitHub link: Next-e-learning.

FarmToTable

ReactJs | NodeJs | ExpressJS | MongoDB

- Developed a full-stack e-commerce platform (MERN) connecting farmers and consumers.
- Implemented JWT authentication, added cart functionality, and integrated Stripe for test payments.
- Enhanced the platform using SCSS, Bootstrap, and Multer for image uploads.
- Deployed the backend on AWS EC2 and ensured mobile responsiveness.
- GitHub link: FarmToTable.

ACHIEVEMENTS

AICTE Vishwakarma Award 2019: 1st Prize winner

Azad Tech Fest MANUU 2018 : 1st Prize winner
