## SKILLS

### Frontend

- React.js • EJS (Embedded JavaScript)
- Redux Toolkit • MUI (Material-UI)
- HTML • CSS • JavaScript • jQuery
- Bootstrap

### Backend

- Node JS • JSON • SQL

### Database

- MY SQL • MongoDB

### Programming Language

- C • C++ • Java • Python • DSA

### Operating System

- Windows • Ubuntu • MacOS

### Version Control

- Git • GitHub

### Deployment

- AWS • Vercel • Netlify • GitHub Pages

### Design

- Canva • Figma

### IDEs and Software

- Visual Studio Code • Sublime Text • MS office

### Blockchain Technology

- Hyperledger Fabric

## OTHERS

- Organized
- Task management
- Creative
- Leader
- Exploring new technologies
- Multi-tasking

## EDUCATION

### B. Tech, CSE

Maulana Azad National Urdu University  
2020-24 | Hyderabad, India  
CGPA: 8.21/10

### Diploma, IT

Maulana Azad National Urdu University  
2017-20 | Hyderabad, India  
CGPA: 9.12/10

## LANGUAGES KNOWN

- English • Hindi • Urdu

## EXPERIENCE

### MeitY Project MANUU | Web Developer Intern

Mar 2024 - Present | Hyderabad, India

- Contributed to various aspects of the project, including data entry of course content and development of the CMS dashboard for [www.edeekshaam.in](http://www.edeekshaam.in).
- Created three engaging games and assisted in drafting the System Requirement Specification (SRS) document.
- Organized the Coding Carnival Hackathon as part of the internship, fostering collaboration and innovation among participants.
- Coordinated a team of 20 interns, demonstrating strong organizational and communication skills to ensure the successful execution of tasks.

### MeitY Project MANUU | Web Developer Intern

Mar 2023 - Dec 2023 | Hyderabad, India

- Developed the Home, Workshops, and Other Events pages for [www.edeekshaam.in](http://www.edeekshaam.in) and created five engaging games integrated into the student dashboard.
- Assisted in implementing responsive design for optimal user experience across devices.
- Collaborated with senior developers and UX/UI designers to translate concepts into functional web elements.
- Participated in code reviews, debugging sessions, and proactively learned new frontend technologies and best practices.

## PROJECT(S)

### Next-e-Learning

ReactJs | NodeJs | ExpressJS | MongoDB

- Developed a full stack (MERN) e-learning platform, Next eLearning, focused on personalized, accessible, and engaging online education.
- Ensured user-friendliness across various screen sizes with responsive design.
- Implemented login authentication with JWT tokens stored in local storage and managed state using Redux.
- Enhanced styles using SCSS and Bootstrap, integrated SMTP for mail service, and used Multer for image uploads.
- Ensured mobile responsiveness and stored data in MongoDB Atlas.
- Deployed the backend on AWS EC2.
- GitHub link: Next-e-learning.

### FarmToTable

ReactJs | NodeJs | ExpressJS | MongoDB

- Developed a full stack (MERN) e-commerce web application for farmers and consumers.
- Implemented login authentication with JWT tokens stored in local storage.
- Enhanced styles using SCSS and Bootstrap, integrated SMTP for mail service, and used Multer for image uploads.
- Enabled item addition to cart and checkout with test payments using Stripe.
- Ensured mobile responsiveness and stored data in MongoDB Atlas.
- Deployed the backend on AWS EC2.
- GitHub link: FarmToTable.

## ACHIEVEMENTS

AICTE Vishwakarma Award 2019: 1st Prize winner

Azad Tech Fest MANUU 2018 : 1st Prize winner
